

Junior Warden Report

For a 101-year-old building, she's in pretty good shape thanks to the Renovation efforts taken over the past 3 years. Outside of the renovation tasks, we've cleaned all the curtains in the Lawrence Parish Hall, cleaned the carpeting in the sanctuary and maintained our farm of HVAC units. Some of the most noticeable tasks taken this year were the cutting down of some very obtrusive trees around the property and the restoration and procurement of new signage for the church.

There is still some work to do though. Before Easter, the back deck of the Mustard Seed will have new decking installed. There are some repairs needed to the fascia and soffits and a lintel needs to be replaced at the Education Building. We are also looking into a refurbishment (cleaning and small repair work) of the Memorial Garden hopefully with the help of the local Boy Scouts Unit. With Spring coming, we will also be pruning the shrubs and trees around the grounds to help keep cars from getting scratched and squirrels having a pathway into the attic spaces.

It's always an honor to serve. Please let me know if you have any questions or comments.

Ethan Wolfe
Junior Warden, Calvary Episcopal
